VOL. XIX. NO. 39.

THE BLAIRMORE ENTERPRISE, THURSDAY, SEPTEMBER 27, 1924

\$2.00 PER ANNUM

## A. B. TRITES EXPLODES— TALE OF RICH MINE

Vancouver—A report from Victoria that ore from one of his claims near Hope had assayed \$35,000 a ton, and bade fair to set a new world's record for richness, is flatly denied by A. B. Trites, well-known mining operator. "The story is not only untrue, but ridiculous, and I am in no way responsible for it," Mr. Trites declared. "It is true I have some claims near Hope, but no development work of any kind has been done on them, although I expect to start development

soon. So far as I know, there is no gold on the properties at all."—Ex.

## PYTHIAN SISTERS BAZAAR

Greenhill Temple No. 10, Pythian Sisters, will hold their annual bazaar and sale of home cooking in the Lodge Hall on Wednesday, November 21st. Please keep this date in mind.

Mr. and Mrs. Gordon Steeves returned last week end from a trip to the Pacific coast.

## LOCAL STREAMS STOCKED

On September the 26th, sixty-five thousand cutthroat trout fry were planted in Byron Creek, Rock Creek, Goat Creek, Star Creek, Allison Creek and other small tributaries of the Crowneast River west of Lundbreck by Assistant-Superintendent J. W. Bailey, of the Waterton hatchery, and Fisheries Inspector Jos. Holmes, assisted by members of the Bellevue and Coleman angling clubs.

These fry were the first production of the new hatchery and were from eggs secured from Yellowstone Park. The balance of the hatch has been planted in Waterton and small creeks in that vicinity. The hatchery is endeavoring to secure sufficient salmon-trout eggs to stock Waterton and Crowneast Lakes.

This activity on the part of the fisheries department is very creditable and promises well for the future of the sport in this section of the province. This is only a start, however, and increased production will largely depend on the interest and assistance shown by local angling societies and individuals. The attraction of Crowneast Lakes would be greatly enhanced by having the waters well stocked with salmon-trout, and a little boosting in that direction is all that is needed.

## PRESENTATIONS TO MRS. E. ELLIOTT

Before leaving to take up residence at Kimberley, B.C., Mrs. E. Elliott was the recipient of a beautiful cut-glass cream and sugar set from the members of Greenhill Temple No. 10, Pythian Sisters, with which organization she had been a zealous worker since its inception a number of years ago.

The presentation was made in a very fitting manner at the close of the regular meeting on Friday night last through the M.E.C., Miss Emma Kidd. A light luncheon was served following the presentation.

Mrs. Elliott was again taken by surprise on Thursday afternoon last, when the members of the United Church choir and the Ladies' Aid gathered at the manse and presented her with a beautiful silver teapot, as a token of appreciation of the assistance rendered by Mrs. Elliott towards the choir and varied activities of the Ladies' Aid during her nine years of residence here.

Coupled with each presentation was the earnest wish for health, happiness and prosperity in her new home.

## ANNOUNCEMENT

The ladies of St. Anne's church hereby announce to the "world" that they will hold their "Annual 'Mammoth' Bazaar" Saturday, December 1st, 1924. Because of the extensive space, this year it will be held in the opera house. All the old lines will be carried and every available inch of accommodation will be occupied with new and greater attractions.

We did not intend advertising so soon, but, from all over, queries have come as to "when we would hold our Bazaar," that at the request of our countless patrons we are making this announcement. You will hear more about it as time goes on.

## CAN YOU BEAT IT?

While on a fishing trip up the North Kootenay Pass on Saturday, September the 22nd, we picked a ripe crocus.

Dr. C. G. Reinhorn has left on a month's vacation, visiting Vancouver, Victoria, Seattle and San Francisco. Dr. Chappelle, of Edmonton, is relieving Dr. Reinhorn at Bellevue.

Sherwood Merchner, popular Fernie lawyer, has been appointed a king's counsel.

## LETHBRIDGE PRESBYTERY MEETING AT BLAIRMORE

This week, Blairmore is honored by Lethbridge Presbytery of the United Church of Canada meeting here.

The sessions opened on Wednesday afternoon, with Rev. Norman Priestly, B.A., of Coaldale, acting as chairman and Rev. J. A. Claxton, B.A., of Magrath, as clerk.

In attendance at the sessions are the following ministers: Rev. Joseph Lee, Barons; Rev. J. L. Wright, Bellevue; Rev. John W. Smith, B.D., Blairmore; Rev. Wesley Landy, Coalhurst; Rev. Henry J. Bevan, Coleman; Rev. Walter Little, B.A., Fernie; Rev. Roy C. Taylor, B.A., Hilderston; Rev. James McKelvey, Iron Springs; Rev. Norman King, B.A., B.D., First United, Lethbridge; Rev. Thomas T. Faichney, M.A., B.D., Knox United, Lethbridge; Rev. J. W. Melvin, B.A., B.D., Wesley United, Lethbridge; Rev. John F. Knight, M.A., B.D., Macleod; Rev. J. A. Claxton, B.A., Magrath; Rev. W. H. Stratton, Milk River; Rev. G. Harrison Villet, B.A., Pincher Creek; Rev. Albert J. Elson, B.A., B.D., Rellaw; Rev. W. H. Irwin, Taber; Rev. Thomas Powell, D.D., superintendent of home missions for the conference, and Rev. George W. Kerby, B.A., D.D., president of the Alberta conference.

Following the afternoon session yesterday, the delegates were banquetted in the Mission Hall, where a sumptuous supper was served by the Ladies' Aid. In addition to the Presbytery delegates, the following local representatives were present: Mayor J. H. Farmer, I. P. Robert, G. A. Vissac, W. H. Chappell, Mrs. McKenzie (Frank), W. J. Bartlett, Mrs. F. M. Pinkney, Mrs. J. W. Smith, Robert Henderson (Pincher Creek), Rev. A. D. Currie (Coleman), J. R. Greenham, A. S. May and others. At the close of the banquet, addresses of welcome were tendered by Mayor Farmer, G. A. Vissac, and others; and replied to by the chairman, Rev. W. H. Irwin, Rev. Dr. Melvin and others. The gathering was also addressed by four new members of the Lethbridge Presbytery.

Sessions are continuing today and it is expected will conclude with a banquet to be served at the Coleman church at 6 p.m.

This afternoon the delegates and local friends are being taken for an auto trip through The Pass, some twelve or more cars being placed at their disposal.

## LARGE AUDIENCE GREETSS MISS SIEGEL

The United church was crowded to the doors on Monday night to hear Miss Theresa M. Siegel in a dramatic recital. All through her varied programme she was accorded strict attention and was repeatedly applauded. Miss Siegel's technique is remarkably developed, which gives a real finish to her natural dramatic powers. She can draw the smile or tear and stir you with her mastery of pathos and humor. We doubt if her equal in this regard is to be found in Western Canada.

The chief item on her Monday night's programme was the story of "The Fortune Hunter," in which it was necessary to impersonate no less than ten different characters. This was accomplished with ease to perfection.

Miss Siegel was also present at the church on Sunday evening and favored the congregation with one of her favorite selections.

From here, Miss Siegel proceeded west and will appear at all important centres as far as the Pacific coast.

A lot of people in the Crows' Nest Pass seem to realize just what "Religious Freedom" means in the summertime. They stay away from the practices.

## FATHER OF ERNIE MARSLAND DIES SUDDENLY AT NELSON

General regret was expressed in town when it was learned that Mr. Thomas Marsden, father of Ernest Marsden, had passed away at his home in Nelson Monday, following a stroke the previous Saturday. Up to the time of the fatal seizure, Mr. Marsden had been enjoying apparently good health and was eating his breakfast when he was stricken.

The late Mr. Marsden was born in England, coming to Canada 25 years ago. He called Nelson his home, but up till last February had been a resident of Kimberley for several years, having been in the employ of the Mark Creek store. Some 15 years ago he took up ranching in the Sloan valley.

Besides his widow, who resides at Nelson, deceased leaves a son, Ernest, of Kimberley, to whom the deepest sympathy is extended in their bereavement.—Kimberley Press

Mr. E. Marsden was formerly a resident of Coleman.

## DEATH OF MRS. W. J. BURNS

Closely following upon the death on Friday, September the 14th, of Mrs. Robert Burns, at Coleman, at the age of twenty-five years, came the news of the sudden death of her sister-in-law, Mrs. William J. Burns, which occurred six days later, also at Coleman.

Mrs. Burns had returned but ten days previously from a visit to her home in Lachute, Quebec, and her death resulted from heart failure.

The funeral took place on Sunday last and was very largely attended by members of the Rebekah, L.O.O.F., L.O.L., and other organizations, as well as the town council, school board, and citizens in general.

The late Mrs. Burns was the wife of W. J. Burns, present mayor of Coleman. She was forty-two years of age and is survived by her husband and one daughter, Dorothy.

With Mayor Burns and his brother Robert, and relatives, we join in sympathy.

## Fall Hats

The new hats are moving rapidly these days and new numbers are being constantly added to our showing. For this week-end we will have another large shipment of Felts and Velvets. Styles and values are right.

## Fall Coats

Recent additions to our stock include the serviceable Chinchilla Coat, tailored in mannish styles, with or without fur collar—Priced at

**\$25.00 to \$29.75**

## Fall Dresses

Up to the minute styles in dresses for afternoon or evening wear, with a special showing of good silk dresses for the stylish stout figure.

### WORLD HAPPENINGS BRIEFLY TOLD

Thomas London, one-time Canadian sculling champion, died recently in Toronto, at the age of 87.

The first windmill plane has crossed the English Channel, piloted by its inventor, J. De La Cleyra.

A Chinese laundry man and the employees of a millinery shop at Mexico City, divided the first prize of \$400,000, in the September 14th lottery. They held number 1246 which was winner.

Permanent government flying posts in Hudson Strait are a strong possibility it was stated by Squadron Leader E. A. Lawrence, who with eight others, has returned from 16 months' service in the North.

Members of the provincial government and Lord Lovat, under secretary of state for the Dominions in the British Government, discussed the placing of British settlers on the island in British Columbia. The government offered the fullest co-operation.

French Canadians, resident of New England, may decide the presidential election. Ordinarily these states are Republican but it is thought Democrats will get the majority of the French-Canadian vote which is considerable.

Fire losses in Canada during the week ended September 12, 1928, are estimated by The Montreal Times at \$729,300, as compared with \$239,000 for the previous week, and with \$222,650 for the corresponding week of last year.

Establishment of the largest paper mill in British Columbia is virtually assured, according to a recent report in the Vancouver Star. The lands department, in an interview stated that the Fraser Pulp and Paper Company is preparing to go ahead with the erection of a plant in Prince George.

The committee appointed by the government of Persia to examine the Kellogg pact for the renunciation of war has recommended that Persia adhere to the pact, but should not adhere to the conditions and reservations of "certain European governments."

### Many File On Homesteads

Rush Is Seen At Dominion Land Office At Edmonton

All previous records since pre-war days were exceeded during the week of August 29 to 35th, in the number of homesteads filed on at the Edmonton Dominion Land Office. The total for the above period this year was 114, while for the same period of last year only 35 such entries were taken up. Local officials attribute the increase to several causes: the general improvement in conditions, the new regulations which permit a party who has previously proved up a homestead to refile on Crown land, and to the large number of settlers now realising the opportunity to obtain land closer to transportation and social activities than formerly.

About two-thirds of all the employees in the telephone business in the United States and Canada are women and girls.

It is said man can now fly five times as fast as a bird. Maybe so, but you hardly ever hear of a bird coming down out of control.

One medical authority says that the growth of children takes place entirely when they are asleep.

## LARGEST AND FINEST OIL TANKERS SAIL UNDER CANADIAN ENSIGN

ABOVE—The "C. O. Stillman" world's largest Tanker. BELOW—The "Calgarville" most modern of Tank ships.

With the launching in England on September 14th of the motor tank ship "Calgarville" Canadian interests which already own and operate the world's largest tank ship, claim also the most modern and efficient of tankers, and a Canadian tanker fleet was further enhanced as one of the major oil fleets of the world.

The "Calgarville" slipped from the ways at Haverhill-on-Tees with Miss Eleanor Ross, daughter of Victor Ross, Vice-President of Imperial Oil Limited, acting as sponsor. The "Calgarville" is a 15,000 ton vessel with an indicated horsepower of 6,500, which makes her one of the most powerful and fastest tankers of her size. She is guaranteed a service speed of 12 knots. She is 640 feet long with a 70-foot beam and moulded depth of 37 feet 9 inches. Her modern equipment will permit loading and unloading of 120,000 barrels of oil in twenty-four hours, and so she will be almost continuously in transit, serving much as an "oil ferry" between Tahiti in Peru, Cartagena in Colombia, and Montreal and Halifax. She will establish new figures for economical transport of petroleum.

The "Calgarville" is the last of three large modern sea-going tankers and one like tanker which were laid down some time ago in British shipyards for Imperial Oil. Preceding her in launching were the "Victrolite" for lake service and the "Vancouver" and "Vancouver." The flagship of the fleet in which she will serve is the world's largest tanker, the "C. O. Stillman."

### Livestock Industry Prosperous

Good Prices Now Being Obtained In Western Canada

A cycle of prosperous years faces the livestock industry of Western Canada, in the opinion of ranchers. Cattle are fetching almost double what they were turned off for three years ago and hogs are going higher. Lambs and mutton are also selling at a worth-while price and good, heavy, well-broken horses are in active demand. A survey of the agricultural situation in the United States indicates a marked shortage of beef cattle making for strength in the Chicago market, so much so that Canadian producers find it profitable to ship there despite the duty of two cents per pound imposed on fat cattle. Stocker and feeder cattle from the Canadian prairies are also wanted in the middle west.

### The Follow Up Method

A new sign for motorists has appeared on an English road. It is hoped that it will be particularly effective in checking those motorists who are not too careful when on stretches of road under repair. A first notice gives the warning, the conventional "Slow Down, Road Under Repair." About 50 yards farther along is a large white signboard with the admonition: "You Have Been Warned," painted on it in large red letters.

### Dedicated Canadian Airport

The Canadian Gateway airport at Derby Line, Vermont, was dedicated recently with Vermont and Canadian officials in attendance. The dedication address was delivered by Congressman Ernest W. Gibson. Fifteen airplanes from various Canadian and American cities took part in the exercises.

The happiest people are those who are so busy they don't have time to think about whether they are or not.

Banana cloth is being used now. It should make a nice little thing to slip on when you're in a hurry.

### Huge Merry-Go-Round

Gulf Stream Is As Old As Atlantic Ocean

The huge Gulf Stream, which moves more water than all the rivers of the earth combined, is not changing its course, the National Geographic Society reports, commenting on statements of ship-captains indicating a possible reversal of current.

There has been a gulf stream since there was an Atlantic Ocean and trade-winds to blow on it, the society reports, describing how the winds cause the huge current as an electric fan directed at the surface of a tub of water will cause all the water to swirl about.

The warm waters of the Caribbean Sea, blown westward by the trade winds into the Gulf of Mexico swirl about and seek an outlet in the Florida Straits, whence the stream, 40 miles wide and nearly 5,000 feet deep moves with such momentum north-eastward that it preserves its identity until it reaches Europe.

The Gulf Stream is a merry-go-round of the Atlantic. After it hits the British Isles, helping to provide a mild but foggy climate in that relatively far northern latitude, it divides, and one branch turns south to Portugal, where it strikes the westerly trade winds and returns to the Caribbean Sea. Another branch goes north of the British Isles and proceeds, considerably chilled, into the Arctic Ocean.

But for the great stream, England might have the climate of Labrador, and Norway, the bleakness of Greenland.

### Record Cheese Shipment

Canadian cheese shipped from Montreal in a single week to foreign markets totaled more than 35,000 boxes, an increase of nearly 20,000 boxes compared with the same week a year ago. Prices paid at country points were records for the year to date.

The prison population of England and Wales has decreased from 20,000 to 10,000 since 1888.

Of 12,000 tons, and the "Trentolite," formerly a steam turbine vessel, which was converted into a motor ship, with a tonnage of 9,350. The combined motor tank ships carry 1,016,000 barrels of oil which they load and discharge at an average port of twenty-four hours. It is estimated that these ships carry for about 25 per cent cheaper than steamships of corresponding size.

In addition to the ocean tankers Imperial Oil is operating six canal size steam driven ships on the Great Lakes and to Fort William, serving the Haffax, Montreal and Sarnia refineries. Most of these vessels are up during the winter but in the summer it is a rare thing for one of them to have more than eight or ten hours in port. On the Pacific Coast the SS "Imperial" and two other steam vessels transport petroleum products for the company, and there is also the small motor ship, the "Marquette," with a capacity of about 1,000 barrels. The combined capacity of the entire Imperial fleet is approximately 1,100,000 barrels; sufficient to fully load more than 5,300 tank cars, making a train 35 miles long.

The modern ocean-going tank ship contrasts interestingly with the shallow draft river boats which are used by the Imperial interests on the Magdalena River, in Colombia, and which resemble in appearance the stern wheeler. Mark Twain once piloted on the Mississippi.

### A Growing Industry

Fish Reduction Plants In B.C. Doing Big Business

The growth of fish reduction plants on the west coast of Vancouver Island is shown in a report of the Dominion Inspector of Fisheries. With the lifting of the ban in 1926 fifteen plants began operations, and a production of 4,841 tons of pickled meal and 1,898,721 gallons of pickled oil were realized. Last season 10 plants were in operation producing 12,115 tons of meal and an oil production of 2,603,190 gallons. The movement in the first year was chiefly to Japan, but in 1927 more than 9,400 tons were shipped to Hamburg. The Japanese production of pickled oil last year was shipped to the United States.

### New Insomnia Cure

Lie With Head To North British Doctor Advises

The next time you can't sleep, try lying with your head toward the North Pole. Instead of counting sheep, the London Evening Standard advises:

"Sleep with the head north and the feet south," the article said, quoting a physician. "The human body is a magnet through which electrons circulate north or south."

It was explained that, as the electrons originate from the thyroid glands of the neck, when the sleeper lies toward the north the electrons travel south away from the brain.

Announcer—"I simply cannot work this evening."

Station Manager—"And why not?"

Announcer—"Because my wife will be listening in—and we're not on speaking terms."

In the Willelzi salt mines at Cracow there are salt, shrines and statues made of salt.

Louis XIII. often prepared his own food in order to thwart the attempts of enemies to poison him.

## Master Blason

A mixture of very fragrant and mild tobaccos

### Unique Samples Of Success

New Canadian Awarded Prize For Best All Round Farm

Success in farming in Canada is not bound by any nice limitations of nationality. This was strikingly demonstrated at the standing grain and good farms competitions conducted recently by the Calgary Board of Trade in co-operation with the Provincial Department of Agriculture.

The prize for the best all-round farm in the district was awarded to Tosef Canovsky, of Cochrane, Alberta, who emigrated from Hungary a few years ago. This competitor also won the highest honours for a standing field of oats. The second prize winner was Oscar Anderson, from Sweden. The third winners, Messrs. Wright and Bond, of Irwin, Alberta, were from the United States; while the fourth, R. Nees, of de Winton, Alberta, was from England.

Of Tosef Canovsky's farm the judges said that it gave an impression of artistic taste combined with utility. The buildings were well built, well kept and arranged according to an intelligent plan, with everything in good order. Further, this Hungarian farmer's livestock was mostly pure-bred, and his fields were absolutely clean and free from weeds.

The superintendent of the native art of Christianity, its cradle-song is that of angels, its death-chant the triumph of the spirit. "Behold, I see the heavens opened."

We are daily judging ourselves unworthy of the grace of God, and of the refusal to accept and rely on it—Lynan Abbott.

"There stood a man of Belgium saying, 'Come over and help me,' and immediately men of Britain arose to answer his call."

We cannot think of the vastness of the universe without feeling that we are citizens of no mean city, but perhaps we should be more impressed by the order and the uniformity of the heavens.—J. Arthur Thomson.

"When came the Sabbath of worship and rest. Out of the city, in reverent quest, Down by the river'side faithful ones Where prayer was wont to be made In His name."

The world has often had its dreams of gold who had come down in the likeness of men, and even of a divine influence pervading all things; but no ethnic religion has told how men may come to God.—H. E. Fox.

"The tale of Lennie was overbearing, belligerent as he breathed out threatening and slaughter on the road to the end of the world."

"What is all this solar energy compared to that boundless supply of divine grace—always available to the believing heart! Therein lies power to turn the world upside down, if only the people of God would receive and transmit what he is willing to bestow!—The Christian.

### Manufacture Asphaltic Oil

Imperial Oil Company Erect Plant In Regina For Production Of Oil For Road Making

A new industry got under way in Regina a few days ago when there was erected a \$25,000 plant by the Imperial Oil Company. It is for the manufacture of asphaltic oil, being used for waterproofing gumbo roads in Saskatchewan and also of asphalt for paving and other purposes. The new plant has a capacity of between 300 and 400 barrels of asphaltic oil per day.

### Shorter Names Suggested

The Society for the Saving of Time, a newly-founded efficiency organization in France, has decided in favor of the shortening of names. It wants to limit family names to five letters and other names to two. In this way, it is declared, the business world would save millions of pounds in correspondence yearly.

### The Rich get everything. You win

notice there was little effort to improve the jabs until the upper class gave up to them occasionally.

### BABY GIRL HAD DIARRHEA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes: "My baby girl was cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any'

why, I wouldn't be without it where there are children."

"My husband went to town and got a bottle, and the very first dose helped her wonderfully, and three days later was well over the diarrhoea and was running around as well as ever."

#### CHAPTER I.—Continued

Gillis rose with an embarrassed air. "Here I am talking 'bout you and 'I travelling' together. I guess you're one of them tourist fellows, and I don't suppose you want to go along with a rough-neck like me."

Donald liked this bluff, big West-erner, with his honest face and simple manner. He reached in his pocket and took out the money the sheriff had given him.

"You see that? Well, before this money is gone I'll have to find a job. And it's borrowed money, too."

Gillis studied him carefully. "Well, you got my goat in a way, but there is one thing I do know, and that is that you ain't no slicker. I'm 'bout twice your age, and I know a good face when I see it. I'll meet you to-morrow mornin' at the station. I'm goin' to start callin' you Donald right now. And what's more, Jack Gillis is your friend from now until hell freezes over. Good-night, Donald."

#### CHAPTER II.

Two days later Donald and the Westerner boarded a C.P.R. train in Montreal for the West. They were no sooner comfortably seated in their section of a tourist sleeper than they began rushing westward through the winter evening.

The days that followed were full of interest to Donald. The train roared West, running on time like a clock. They tore through towns and farming settlements and plunged into forests and hills in the northern part of Ontario. The hills descended when they reached Manitoba, and in Alberta Donald felt as if he were sailing over a vast sea of land.

"We'll see them old Rocky Mountains pretty soon," said Gillis happily. "You'll like 'em. BC. Donald. And after you bin there awhile all hell won't pry you loose. I know, 'cause I broke away from her twice, but I always drift back. I ain't got the education to tell you the funny feelin' I have when I come back to her. When I see them big mountains loomin' up I feel sort of scurried inside, like I wanted to smile at everybody, and I have a hard time to keep from lettin' out a yell."

"Your power of expression needs no apology," laughed a second.

"Forgot to tell you that I ain't got right through to the Coast. The Company I work for has a mill at Revelstoke that needs fixin' up. The job'll probably last 'till spring. You better stay off with me, 'cause you'll find

things on the Coast pretty quiet this winter."

Gillis had played the part of host from the start, and Donald knew that if he accepted the invitation to stop off at the interior town, Gillis would insist on treating him as a guest. He felt that his new friend could not afford to part with his lavish generosity. Donald shook his head regretfully. "I think I'll go through to Vancouver."

Gillis arose with visible reluctance as the train drew into Revelstoke. "Well, I got to leave you, pardner." Donald had developed a sincere friendship for the man. There was a great deal of tenderness beneath the rough exterior of this Western logger.

"I'm pretty lucky in finding a friend like you," Donald said feelingly as they shook hands.

"That's all right, my boy," Gillis replied awkwardly. "I like you, and I'll sure look you up when I hit the Coast. So-long."

The sun was shining brightly as the train rushed along the edge of Burrard Inlet toward Vancouver. The lawns were a bright green, and the breeze blowing in the car-window was soft and balmy. Across the Inlet, that sparkled in the sunlight, were huge mountain-peaks, their tops covered with snow. The homelike passengers were smiling happily while a look of eager interest shone on the faces of those who were strangers to the Coast.

Donald paused for a moment on the corner of Granville Street while the cosmopolitan crowd dived past him. Stolid-faced schoolboys, dressed in flamboyant colours, with baskets of claims on their backs, rubbed shoulders with the haughty, turbaned Hindu. The little brown-faced Jap darted here and there amongst the crowd. A Chinaman came swiftly around the corner of an alley, moving with a peculiar trot, a pole across his shoulders, from each end of which dangled a basket filled with fish and vegetables. Another Chinaman, with a face of true Oriental impassiveness, riding a bicycle down the street, a pipe clutched in his mouth, was extremely incongruous. The wide, well-paved streets and the city's general air of modernity were impressive. In common with many other Easterners, Donald had pictured Vancouver as a rough Western town.

Donald engaged an inexpensive room and at last began a search for employment. Many of the mining and logging camps were closed for the winter, and work was scarce. He applied to all the engineering firms in the city, but their answers were invariably the same: "Nothing doing until spring."

Days passed, and as late winter merged into spring there was a stir throughout the city. Men who had spent the winter in Idleness were "going out" again. Loggers in their characteristic blanket shirts hanging loose outside their trousers, could be seen on all sides saying good-bye to their friends.

One morning Donald counted his rapidly dwindling cash and found that he would have barely enough to tide him over the week-end. With all his assets in the way of clothes and jewelry in a pawnshop, he could not stave off the inevitable, and there came a day when he had not even the price of a meal. Too proud to ask for a loan, he went without breakfast and lunch.

At the logger's employment agency he was told the same old story: "Only men of experience wanted. But," the agent added hopefully, "men are going to be scarce this summer, and you'll be taking on everything before long." Donald made the rounds of the engineering firms where he had applied for a position, but without success. Faced of habit, he had been to the employment agency, where he sank disconsolately to a bench.

A diminutive man with blond hair, bright blue eyes under shaggy brows, and his head set at a cocky angle, entered briskly and approached the

waiter. "By, do you know where I can find an 'easy' night that has a bit?" he said to the agent.

"How about those two I sent you yesterday, Andy?"

The one addressed as Andy made a gesture of disgust. "Those two lightweights were as easy as cows. They didn't know their right 'and' from their left. I don't want any 'human punchin' bags,' I want a man that's a little speed. Blime me, if I was in Australia I could get a 'arf a dozen in 'arf a minute."

"I'm your man," said Donald stepping forward.

The small man turned. The keen eyes under the bushy, light-coloured eyebrows studied Donald carefully. "Can you box?"

"I can."

"Good. Come with me."

Donald followed the sturdy little Australian. For a few blocks they walked in silence.

"Ad your dinner?" queried the Australian.

"We'll 'ave a bite in 'ere."

They turned into "Old Joe's" restaurant.

"Sounds good to me," observed Donald with a pleased smile.

"Been missin' a few meals, 'ave you? Order what you want," said the Australian, as they sat down to a table.

"I'll warn you that I'm hungry," cautioned Donald.

"Op to it, my lad; about all we get in this blazin' world is what we eat. What's your name?"

"Donald McLean."

"Mine's Andy Pettray."

Then Andy delivered himself of the following information: "I'm the manager of Bill Haggs, the Australian 'sweatweight. We are to fight Sluggie Garriau, the Canadian champion, in about two weeks. The Sluggie is well named, as 'e is an 'easy 'tifer and it takes a good boxer to beat 'im. I want an 'easy man that can give 'im a bit, and I've 'unted this town over, but I can't find none. Now, if you can deliver the goods, you'd be worth three dollars a day and your eat. What do you say?"

"I say yes," was the decided answer.

Andy dug into his pocket. "Ere's three dollars to bind the bargain."

"Better wait until I earn it," suggested Donald.

"That's all right, me lad; you'll be needin' it to eat on. I ain't worried."

"Come to the gymnasium at the corner of Robson and Granville at two o'clock tomorrow," advised Andy as they stepped outside.

"I'll be there, and I want to thank you for your kindness," said Donald.

"Forget it," smiled Andy. "I've seen fat many a time myself."

"Half an hour ago I was broke and hungry," mused Donald. "And now I am well fed and have three dollars in my pocket. Great old world this!" He chuckled happily as he swung down upon-planned Cordova Street with a buoyant stride.

To Be Continued.)

## What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are now using it. If there are children in your family, there's almost daily need of its comfort. And any mother who can give her very thankful child a bottle in the house. Just a few drops, and that colic or constipation is relieved, or diarrhoea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby. However harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use in emergency, or for everyday ailments. Any hour of the day or night that Baby becomes fretful or restless, Castoria was never more popular with mothers than it is today. Every drugist has it.

When, in 1918, the Jewess Rosa Kaplan attempted Lenin's life, 800 young Russian officers were executed in Moscow.

## A Double Escape

### DOCTORS' DAUGHTER'S STORY

Another Toronto woman provides evidence of how a simple cut, scratch or bruise may pave the way to deathly illness, and how a simple cut, scratch or bruise may pave the way to deathly illness, and how a simple cut, scratch or bruise may pave the way to deathly illness.

When I fell over a steel fender and injured my knee, I was told that I was lucky. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zamb-Buk, and it cleaned and healed the wound. All drugs and stores sell Zamb-Buk at fifty cents per box, which is valuable for eczema, pimples, cuts, burns, etc.

## Auto Derail Many Trains

### What Happens To Car and Passengers Not Hard To Guess

An automobile weighs a ton or two, while a railroad train may weigh a thousand tons, yet in one year automobiles caused twenty-seven derailments. Probably the whole train was never derailed, but it is surprising that even that it was forced from the tracks. What happened to the passengers of the derailed automobiles is easy to reason out.

In the same period over ten thousand railway crossing gates were smashed, while many automobiles were stalled on the tracks, and others were demolished by flying trains which were not derailed.

Each year thousands of persons are killed and injured at railroad crossings—and practically every death could well be labeled "suicide," for we deliberately permit, in talking the American's gambling chance.

The only ways in which one may commit suicide at a crossing are by trying to beat the train, or paying no attention to what is coming along the track.

Each year thousands of persons are killed and injured at railroad crossings—and practically every death could well be labeled "suicide," for we deliberately permit, in talking the American's gambling chance.

## Teeth and Health

### Insured By The Canadian Dental Society

TOOTH-STRUCTURE

You examine the highly polished clean tooth surface and you conclude, and rightly so, that the enamel does not permit all the way through. As the bark is to the tree, so the enamel is to the tooth. It is the protective, but serving as well, the purpose of ornamentation of the tooth body.

That is this all. For as in the tree we find a central chamber known as the pulp chamber, and in the root, as the root canal.

But you have observed, too, that the enamel covers only the exposed portion of the tooth, or crown. The root, then, is protected by a covering known as cementum, which attached the myriads of fibre or "threads." These threads firmly in place in its socket.

Nature, ever wise, has constituted the enamel the hardest substance in the human body, to better withstand the stress to which it is subjected. Also, enamel does not undergo the physiologic changes of dissolution and repair to the extent of any other body tissues, hence the need of hardness as an effective barrier to injury and disease.

In the dentine are minute tubules, or canals, containing soft tissue filaments through which communication is established from the outside of the tooth to the nerve tissue of the pulp; and because of this honeycombed structure and, too, owing to dentine being softer than enamel, it is less resistant to disease than the latter.

So you can see how important it is to keep intact the enamel which constitutes the outer defences of the tooth since disease processes, once penetrating the enamel barrier, can quickly gain access to the more vital tissues within and hence proceed at will to destroy.

## Strong For Trade Mark

According to Premier Ferguson of Ontario, Canadian fruit is losing its chance on the British market, because it is not specially stamped. British buyers are "strong" for trademarks, and they go where trademarks lead them.

## What Happens In Half Second

### Speeding Car Travels Ten Feet In That Time

The fastest thing that any man can do is to wink his eye. The instinctive reaction of winking when a car comes down the eye is about one-tenth of a second for most people. In that flash of time, an automobile speeding sixty miles an hour will move nearly ten feet. A fast airplane will move more than twenty-five feet. Thus, the pilot can run into a small bird after he has first seen it before he can wink his eye against the expected shock, writes E. E. Free in Popular Science Monthly.

Some months ago, a workman fell out of the fifteenth floor of a building in course of construction in New York City. On the thirteenth floor he grabbed a rope hanging from a scaffold and swung himself in on the twelfth floor, saving his life. He afterwards confessed that he was as much astounded by his act as anyone who saw him.

The explanation is that the fall of twenty or twenty-five feet before he grabbed the rope occupied about one second and a quarter, which was time enough for his thinking machinery to issue the orders which made his muscles take hold of the rope below at the proper instant. Had he been placed in equal danger while driving an automobile at sixty miles an hour, he would have been killed.

Tests with a group of typical automobile drivers have shown that the average time needed to see a danger signal, realize its meaning and begin to press the brake lever is a little more than half a second. In that time, a car travelling forty miles an hour would move thirty feet. That distance represents the minimum margin of safety the driver must maintain to avoid accident.

As speeds increase, no remedy for the advancing number of accidents will be found in stricter driving tests or improved warning signals. Devices will have to be found speedier than the human nervous system.

## NO MEDICINE LIKE

### BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mr. John Armour, R.R. 1, South Monongahela, Pa., writes: "They are absolutely healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach, cure colic, banish constipation and indigestion; break up colds and simple fever and make teething always easy and without medicine. Dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

When Asthma Comes do not despair. Turn to the help effective D. B. Rogers' Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Coughing, wheezing, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

## Took a Chance

Chance perusal of a newspaper advertisement has brought B. A. Martin, purchaser of "Eight Seasons," of Vancouver Island farm, all the way from Southern India, Mr. Martin landed in Victoria, accompanied by his wife and eight children, as promising a looking group of new citizens as the Pacific Coast has seen.

## Veterinaries Use Minard's Liniment

German youths are not so tall now as in the pre-war days. The general decrease is about 1½ inches.

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

Aluminum serves mankind in many ways—one of them being as a cooking or fire heat. All Red Rose Tea is put up in clean, first class aluminum, thus insuring its coming to your table as fresh and luscious as the day it was packed.

## Dressmaking School

A practical training in designing and making costumes and millinery; individual instruction, per cent. reduction for those enrolling by October 15th; 15 per cent. for November 15th. Register now and save money. Send for particulars. The Whimpering Dressmaking and Millinery School, 12 Donald St., Winnipeg. Established 1900.

## PATENTS

The RAMSAY CO., Dept. 273 BANK ST., 187 OTTAWA, CAN.

## Little Helps For This Week

"And the Lord make you to increase and abound in love one toward another, and toward all men." — 1 Thessalonians 3:12

If any little word of mine  
May make a life the brighter,  
If any little song of mine  
May make a heart the lighter,  
God help me speak the little word,  
And take my bit of singing,  
And drop it in some lonely vale  
To set the echoes ringing.

If any little love of mine  
May make a life the sweeter,  
If any little care of mine  
May make a friend's life the fleetier,  
If any little of mine may ease  
The burden of another,  
God give me love and care and strength  
To help my fellow brother.

God divided man into men that they might help each other.—Seneca.

## Bears Well Behaved

Have Better Manners Than Any Other Wild Animal

The epicurean bears have the best table manners of any wild animal, in the opinion of Scorchum Alarid, who presides at the nightly feasts served to brulins in the park at Yosemite.

Scraps of food gathered from eating houses of the region are brought to a regular place, where bears are always waiting to be fed.

"Each evening the hungry brulins patiently wait until I have backed my truck containing their food to the platform and have set their table," Alarid said.

"When I empty the scraps on the platform they take their places. They do not rummage their food as are not in the least disturbed by the throngs of tourists who watch them," he added.

Athletes — Keep Minard's Liniment handy.

## Airplane Saved Men

A score of men without food and very little clothing in a wild part of the Red Lake District, Manitoba, have been saved by airplane, which took emergency rations from Hudson. The pilot of the men was caused by a forest fire which destroyed their cabins and supplies.

The principal difference between a "shoppe" and a "shop" is about ten bucks per garment.

Don't forget it, that self-pity is the most despicable of all vices.

## GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking Vegetable Compound for nerves and other troubles and I feel different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McKee, 18 Laurier Ave., Toronto, Ontario.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Sept. 27, 1928

AN OPEN LETTER TO THE  
PEOPLE OF ALBERTA

Since the inauguration of the peace times programme of the Canadian Red Cross, the Alberta division has spent hundreds of thousands of dollars within the province. This money has been spent in relief work, out post hospitals, home nursing classes, immigration work, Junior Red Cross in the schools, general health education work, and in connection with the crippled children's work, on which alone \$160,000 has been spent.

A large part of the money spent, a quarter of a million in fact, has been given to us in annual grants by the national office in Toronto, who believe the work the Alberta division was doing was worthy of that support. The funds at the national office, however have become depleted, and this year our grant was cut by \$15,000, and next year we will have to be self-supporting.

This situation leaves the question of the continuance of Red Cross service squarely up to the people of the province. We need \$65,000 yearly to carry on our work. Over \$50,000 of that sum must be raised by voluntary contribution. Unless therefore, you rally to the support of Red Cross and by each doing his or her share, enable us to raise this amount, Red Cross must discontinue the services it has been giving.

This means stopping our immigration and health work, reducing our outpost hospital work and worst of all curtailing our crippled children's work. Are you willing this should happen?

As president of the Alberta division I feel that Red Cross services are too valuable to lose, and I believe that when the people of this province really realize that Red Cross must have greater support or it ceases operation there will be no question of their answer.

There will be a provincial wide campaign starting at once. I appeal to all to do their share. Give at least \$1.00 and become a member; give more if you can. If you would rather, you can give a grain donation, as all elevator agents will issue cash or storage tickets in the name of the society and forward them to us for you. Do what you can to assist those in charge in your district and give your membership or donation to them; or if you prefer, send your membership or donation direct to 407 Civic Block, Edmonton.

The main thing is give your support in every possible way. Don't let Red Cross fail!

Yours faithfully,

W. EGBERT.

Lieutenant Governor and President  
Alberta Division, Red Cross Society

OIL AND GAS IN  
WESTERN CANADA

A report by Dr. G. S. Hume and others on the oil and gas fields of western Canada has just been published by the Geological Survey. The introductory part of the report is a concise presentation of the theories of the origin of petroleum and of the geological condition favoring its accumulation. A chapter is devoted to a consideration of the carbon ratios of oil and gas in western Canada and a chapter to geophysical methods of prospecting.

The main body of the report gives detailed descriptions of the various oil and gas fields, of the geological formations exposed on the surface

and encountered in drilling, and of the structural features of the strata. It also gives information regarding the results of boring operations and a discussion of the oil and gas possibilities. These descriptions are written by the members of the staff of the Geological Survey that have most intimate knowledge of the fields under consideration.

In an appendix appears a list of the wells drilled in western Canada, with their exact location, their depth and the results obtained. Copies of the report may be had by applying to the Director, Geological Survey, Ottawa.

CANADIAN FIRST TO ENTER  
CHICAGO GRAIN SHOW

Canada has the honor of making the first entry in the competitive classes of the International Grain and Hay Show, which will be held at Chicago, December 1st to 8th, according to Secretary-Manager H. B. Heide of the International Livestock Exposition, of which the grain show is a leading department. James A. Paur, Latham, Saskatchewan, sent in the first entries of the year. He will exhibit samples of rye and Marquis wheat with which he has been very successful in the past.

The winnings of Canadian farmers at the big Chicago show have resulted in bringing the agricultural possibilities of the Dominion to the attention of the entire world and efforts are being made this year to send an even stronger display of grains to the show than in former years. Entries may be made without charge, but must be in the hands of Manager B. H. Heide, Union Stock Yards, Chicago, by November 10th. A large number of special awards are offered to the exhibition premiums are offered to the Canadian exhibitors by the provincial governments, railroads and other Canadian business interests.

## KINDNESS MADE PRACTICAL

A striking example of the increasing kindness felt and manifested towards the wild creatures of earth is found in the campaign carried on by the Royal Society for the Protection of Birds in Britain to safeguard migrating birds on reaching England's shores. Attracted by beacon light along the shore the night travellers swarm about the brilliant rays and fall exhausted into the sea. Thus the light erected to safeguard human beings becomes a destructive agency for myriads of birds.

Formerly it was believed that the major destruction came from dashing against the light, but Thijssse, a Dutch naturalist, after long study became convinced that the major destruction was caused by exhaustion as the birds, perhaps wearied from long flights, flew round and round the light, searching for a favorable perch upon which to rest. In pursuance of this conclusion, the Royal Society gained permission from the government to try out the plan of erecting latticework perches of wood about the dome of the lighthouse in such a way that operation of the light is not interfered with, while at the same time the perches receive the full glare of its beams.

The experiment is so successful that other lighthouses are being fitted out in the same way and as a result thousands of birds are being saved annually. As this work progresses the number of birds in Great Britain will be measurably increased, with the result that the farmer's best friend will be even more successful in defending the crops against the increasing host of insects. Bird lovers everywhere will rejoice in this overcoming of a great menace to birds; and the hope is that all countries having seacoasts in the path of migrating birds will follow this successful effort at conservation of wild life—Christian Science Monitor.

Canadian asbestos in the raw state is sold to the United States manufacturer for \$36 a ton, and when finished is sold back to the Native Sons of the Dominion for \$700 per ton.

## TRIALS OF A WEEKLY

The editor of the Canadian News writes an editorial in this week's issue, which cannot fail to strike a responsive chord in the bosom of every newspaper staff that goes to press on a Thursday. His wild wall over immoderate advertising, is the weekly experience of all two many newspaper offices. Everything to do on the one day, and whatever happens the paper must be out.

He says in part: "Everybody has a fix day—Ours is Thursday. On Monday, Tuesday and Wednesday all things run smoothly in most small own newspaper plants. From the editor down, those days are filled with activity, but with an optimism permeates the plant which points to better times, to increased circulation, to more advertising."

"On Thursday morning things begin to happen. First we find that Laidlaw's ad never arrived until late Wednesday night and that at least three other ads are not even in the office. We begin to rush things. The post office we know closes promptly at 7 p.m. and we have 4000 runs of the paper to get out today, and it is even now 11 o'clock, and not a wheel turning. We begin to wonder why in people can't be on time with their copy—are suddenly hear the phone ring. We compose ourselves and listen to a long-winded tale written an editorial that ought to be written this week, bawling somebody out properly but which "I forgot to mention until now"—Thursday noon it is, and not a wheel turned yet—no dinner to day.

"Well, by one o'clock the big ad is set up and the others are in, and we have the first forms ready for the press. Then when the forms are put to bed, and a proof is taken, we discover that the theatre cut was cut crooked—won't print up, that a rule is high and cuts the paper, or that some other detail has gone wrong, all of which requires from 1/2 to 1 1/2 hours to remedy. At last we're off and the press breaks. It is more than nerves can stand—the whole force gets fired (but we hire them again immediately when we realize our dilemma) and so the jinx has his fun.

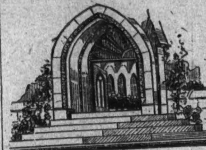

"Having had such fun, the miracle happens. The machinery moves and all is well. The News of the week comes off the press—black on white—local news, intimate, personal, almost part of us. See how carefully Fred passes his fingers over it. See how we all glance kindly at the printed pages coming off the whirling cylinders. How musical to our ears are the resounding swishes and clangs of the press as it trudges backwards and forwards, each time delivering a neatly printed sheet. No wonder that when the day is done, we reverently place one copy in the News archives, dedicate another Thursday to Clio, the Muse of History, and, sticking an extra copy in our hip pockets, we send our divers ways home where each in his own way hunts through the paper for other evidences of the work of the jinx on that hectic day we call Thursday down at the News office."—E.S.

## THINK OF THE POOR EDITOR

The following appeal of a western editor is still going the rounds, though it is to be hoped that by this time the writer's only trouble is in having his vest made large enough: "We see by an esteemed contemporary that a young lady in Chicago knucks bread with her gloves in—what of it? Ye editor of this paper needs bread with his coat on; he needs bread with his trousers on; in fact he needs bread with all his clothes on, and if some of his debtors don't pay up pretty quick, he'll need bread without anything on at all, and this western climate is no Garden of Eden, except that portion of Alberta at Cereal, where Editor Pat O'Hooley bamboozles the public, and up-to-date has gotten away without being killed."

Alberta's northern railways have been added to the C.P.R. for \$25,000,000.

The death occurred at Coleman on the afternoon of September the 18th, of Mrs. J. Ferguson, one of the old timers of the district. She is survived by her husband and one daughter, Mrs. John Kerr (formerly Miss Agnes Ferguson). Deceased had been in poor health for a considerable time. She was a native of Scotland and came to Canada a good many years ago, settling at Coleman. For a while later they resided at Lillo, till that town was abandoned.

Meets Second and Fourth Tuesdays  
at 8 p.m. in the Elk Hall. Visitors  
made welcome. A. E. Ferguson, Ex-  
alted Ruler, J. R. McLeod, Secretary.

### COWLEY SCHOOL FAIR IS HUGE SUCCESS

The Cowley School Fair, which was  
staged in Cowley on September the  
21st, under the leadership of Mr. Dick  
Alexander, was a huge success. The  
exhibits were highly praised by the  
judges, who said that this fair com-  
pared favorably with all the other  
school fairs they had judged in the  
province, and that if there was a  
shortage of some classes it was made  
up in quality where it was lacking in  
quantity.

A large crowd gathered in the hall  
in the evening, where the public  
speaking oratorical contest and sing-  
ing took place, after which the judges  
spoke on exhibition work, point-  
ing out to the children and explain-  
ing why entries did not take a prize.  
The evening was concluded with a  
big dance, from which the school fair  
association swelled their funds some  
\$51.00.

The sports, which were held on the  
sports field in the afternoon, were  
well attended. A heated room and  
free tea and coffee were provided by  
the Cowley Women's Institute for the  
benefit of the country women and  
children on the day of the fair.

Contributions to the School Fair  
fund were made by Mr. Leigh, Mrs.  
Christie, Messrs. Swart, Mr. Lemire,  
Mr. Potopoff, Mr. Kent, the U.F.A.,  
the T. Eaton Co., Mr. Cowin, the Co-  
operative Store, the Alberta-Pacific  
Grain Co., Osborne's Municipality,  
Livingstone Ladies' Club, Lundbreck  
Women's Institute, the Municipal Dis-  
trict of Livingstone, the Royal Bank  
of Canada (medal) and Mr. Mus-  
greave, special prize.

The judges for the fair were from  
the agricultural school of Claresholm  
and were: sewing and flowers—Chris-  
tina McIntyre; cooking and canning  
—Mrs. Slipp; vegetables, grains and  
flowers—Mr. Robinson; livestock—L.  
E. Kindt; school work—Mr. Charles  
C. Bremner.

Following is a list of prize winners:  
Plasticine model, Grades I. and II.  
—1st, Raymond Cleland, Tanner; 2nd,  
Virginia Hollibaek, Coalfields; 3rd,  
Lydia Smyth, Tanner.

Drawing, Fruits and Vegetables,  
Grades I. and II.—1st, William Kon-  
kin, Cowley; 2nd, Cecil Maloff, Cow-  
ley; 3rd, Evelyn Carmelo, Tennyson.  
Noxious weeds—1st, O. Burcart, Wil-  
low Valley; 2nd, Yvonne Lapointe,  
Cowley; 3rd, Kathleen Robinson, Ten-  
nyson.

Paper construction work, Grades I.  
and II.—1st, Roy Giesler, Tennyson;  
2nd, Eileen Hayes, Maycroft.  
Crayon of flowers or leaves, Grades  
III. and IV.—1st, Jack Bundy, Cow-  
ley; 2nd, Blanch Smyth, Tanner; 3rd,  
Clara Bundy, Cowley.

Landscapes, Grades III. and IV.—  
1st, Ida Eddy, Lee; 2nd, Alma  
Ballantyne, Coalfields; 3rd, Edith  
Murphy, Cowley.

Simple landscape in wash, Grade  
III.—1st, Annie Mottl, Coalfields;  
2nd, Joe Mottl, Coalfields; 3rd, Ma-  
rie McIntosh, Willow Valley.  
Construction and decoration simple  
box, Grade IV.—1st, Mary Chiese,  
Coalfields; 2nd, Alma Ballantyne,  
Coalfields.

Animal or bird, in pencil, Grades  
V. and VI.—1st, George Lowery, Coal-  
fields; 2nd, Gilbert Wright, Tanner;

3rd, Hattie Hullenbeck, Coalfields.  
Decorated landscape, Grades V. and  
VI.—1st, Rita Geisler, Tennyson;  
2nd, Susan Wilson, Maycroft; 3rd,  
Gilbert Wright, Tanner.

Still life group in pencil, Grades V.  
and VI.—1st, Ramsay Spears, Heath  
Creek; 2nd, Verda Cleland, Tennes-  
see; 3rd, Sam Negreaff, Cowley.

Landscapes, including trees, Grades  
VII. and VIII.—1st, Marguerite Link,  
Coalfields; 2nd, Eva Ballantyne, Coal-  
fields; 3rd, Vera Trench, Tennyson.

Spacing of wall of room in colors,  
Grades VII. and VIII.—1st, Elva Bal-  
lantyne, Coalfields; 2nd, Ethel Robin-  
son, Tennyson.

Poster, Grades VII. and VIII.—1st,  
Andrew Dumont, Tanner; 2nd, Elva  
Ballantyne, Coalfields; 3rd, Marguer-  
ite Link, Coalfields.

Penmanship, Grade I.—1st, Eileen  
Hayes, Maycroft; 2nd, Annie Tam-  
inoff, Cowley; 3rd, Evelyn Carmelo,  
Tennyson. Grades II. and III.—1st,  
Edith Nelson, Maycroft; 2nd, Marjor-  
ie Cleland, Tanner; 3rd, John Maloff,  
Cowley. Grades IV. and V.—1st,  
Mary Chiese, Coalfields; 2nd, Gilbert  
Wright, Tanner; 3rd, Sam Negreaff,  
Cowley. Open—1st, G. Wilson, Wil-  
low Valley; 2nd, Margaret Upton,  
Tennyson; 3rd, Marguerite Link,  
Coalfields.

Composition, Grade II.—1st, Mary  
Wilson, Lundbreck; 2nd, Andrew Mc-  
Intosh, Lee; 3rd, Willie Eddy, Lee.  
Grades III. and IV.—1st, Mary Chi-  
ese, Coalfields; 2nd, Annie Kilkosky,  
Coalfields; 3rd, Genevieve Yagos,  
Tennyson. Grades V. and VI.—1st,  
Margaret Kilkosky, Coalfields; 2nd,  
Agnes Carmelo, Tennyson; 3rd, Ruby  
Link, Tennyson. Grades VII. and  
VIII.—1st, Margaret Upton, Tenny-  
son; 2nd, Ethel Robinson, Tennyson;  
3rd, Ruth Trench, Tennyson. Grades  
IX. and X.—1st, Nellie Robinson,  
Heath Creek; 2nd, Helen Lowe,  
Heath Creek.

Collection of leaves, Grade I.—1st,  
Eileen Hayes, Maycroft; 2nd, Gladys  
Upton, Tennyson; 3rd, Evelyn Car-  
melo, Tennyson.  
Collection of insects, Grade III.—  
1st, Margaret Gilmore, Cowley; 2nd,  
Mary Yagos, Tennyson; 3rd, Irma  
Nelson, Maycroft.

Collection of pictures of birds,  
Grade IV.—1st, Mary Chiese, Coal-  
fields; 2nd, Dora Carmelo, Tennyson;  
3rd, Genevieve Yagos, Tennyson.  
Piece of woodwork—1st and 2nd,  
Michael Bruce, Coalfields; 3rd, An-  
thony Bruce, Coalfields.

Map of Alberta, Grade V.—1st,  
Frank Ross, Maycroft; 2nd, Roy Nel-  
son, Maycroft; 3rd, Barbara Bundy,  
Cowley.

Map of Canada, Grade VI.—1st,  
Hazel Eddy, Lee.  
Map of British Isles, Grade VIII.—  
1st, Ruth Trench, Tennyson; 2nd, Vera  
Trench, Tennyson; 3rd, Walter Upton,  
Tennyson.

Weather calendar, Grade II.—1st,  
Leslie Robinson, Tennyson.

Map of Europe—1st, Laurence  
Point, Lee; 2nd, Rosella Shambrook,  
Heath Creek; 3rd, W. Rayburn, Wil-  
low Valley.

Map of neighborhood, Grade IV.—  
1st, Mildred Upton, Tennyson; 2nd,  
Dora Carmelo, Tennyson; 3rd, Gene-  
vieve Yagos, Tennyson.

Two specimen plants, Grade V.—  
1st, Roy Wilson, Maycroft; 2nd, Katie  
Wilson, Maycroft.

Collectible pressed flowers, Grade  
VI.—1st, Susan Wilson, Maycroft;  
2nd, Mary Wilson, Maycroft.

Special essay—1st, Ruth Fink, Ten-  
nyson.

Elucation, Grades I. and II.—1st,  
Margaret Gilmore, Cowley. Grades  
III. and IV.—1st, Billie Smith, Lund-  
breck. Grades V. and VI.—1st, Pat  
Smith, Lundbreck; 2nd, Clara Bundy,  
Cowley; 3rd, Edna Betts, Tennyson.

Grades VII. and VIII.—1st, Ketha  
Tustian, Cowley; 2nd, Margaret Up-  
ton, Tennyson; 3rd, Ethel Robinson,  
Tennyson.

Singing, Grades VII. and VIII.—  
1st, Ketha Tustian, Cowley. Grades  
V. and VI.—1st, Edna Betts, Tennes-  
see.

Spice cake, 10 years and under—  
1st, Marion Morrison, Cowley; 2nd,  
Sylvia Murphy, Cowley; 3rd, Edna  
Betts, Tennessee.

Graham muffins, 10 years and un-  
der—1st, Sylvia Murphy, Cowley; 2nd,  
Clara Bundy, Cowley; 3rd, Eileen  
Hayes, Maycroft.

Maple cream candy, 10 years and  
under—1st, Sylvia Murphy, Cowley;  
2nd, Cathryn Smith, Lundbreck; 3rd,  
Clara Bundy, Cowley.

Baked rice pudding, 10 years and  
under—1st, Dennis Spears, Heath  
Creek; 2nd, Edith Murphy, Cowley.

Doughnuts, 11 and 12 years—1st,  
Edith Murphy, Cowley; 2nd, Ruby  
Fink, Tennessee; 3rd, Eileen Smyth,  
Tanner.

Baking powder biscuits, 11 and 12  
years—1st, Barbara Bundy, Cowley;  
2nd, Ruby Fink, Tennessee; 3rd, Ed-  
ith Murphy, Cowley.

Ginger bread, 11 and 12 years—1st,  
Ruby Fink, Tennessee; 2nd, Barbara  
Bundy, Cowley.

White bread, 13 years and over—  
1st, Nellie Johnston, Fir Grove; 2nd,  
Ethel Robinson, Tennyson; 3rd, Lily  
Robinson, Tennyson.

Oat cookies, 13 years and over—  
1st, Ketha Tustian, Cowley; 2nd, Eth-  
el Robinson, and 3rd, Lily Robinson,  
Tennyson.

Boston baked beans, 13 years and  
over—1st, Phyllis Smith, Lundbreck.

Apple pie, 13 years and over—1st,  
Ketha Tustian, Cowley; 2nd, Phyllis  
Smith, Lundbreck.

School lunch, open—1st, Clara  
Bundy, Cowley; 2nd, Ruby Fink, Ten-  
nessee.

Collection of canning, 10 years and  
over—1st, Tony Doyle, Cowley; 2nd,  
Ruby Fink, Tennessee; 3rd, Freda  
White, Cowley.

Cleaning mit, 10 years and under  
—1st, Sylvia Murphy, Cowley; 2nd,  
Edith Murphy, Cowley; 3rd, Katie  
Wilson, Maycroft.

Hemmed towel, 10 years and un-  
der—1st, Pauline Liakoski, Fir Grove;  
2nd, Ida Eddy, Lee.

Doll's knitted scarf, 10 years and  
under—1st, Edith Murphy, Cowley;  
2nd, Alma Ballantyne, Coalfields; 3rd,  
Betty Holmes, Coalfields.

Hand-sewn bag, 10 years and un-  
der—1st, Alma Ballantyne, Coalfields;  
2nd, Clara Bundy, Cowley; 3rd, Billy  
Holmes, Coalfields.

Slip-over apron, 11 to 16 years—  
1st, Barbara Bundy; 2nd, Ketha Tus-  
tian, Cowley.  
Hemmed patchwork on cotton, 11 to  
16 years—1st, Elva Ballantyne, Coal-  
fields; 2nd, Dorothy Stainsby, Cow-  
ley; 3rd, Hazel Eddy, Lee.

Woven darning, 11 to 16 years—

1st, Myrtle Lowery, Coalfields; 2nd,  
Elva Ballantyne, Coalfields; 3rd, Ruth  
Tench, Tennyson.

Buttons and fasteners, 11 to 16  
years—1st, Myrtle Lowery, Coal-  
fields; 2nd, Elva Ballantyne, Coal-  
fields; 3rd, Ruth Fink, Tennyson.

Hemmed towel, 11 to 16 years—  
1st, Elva Ballantyne, Coalfields; 2nd,  
Nellie Johnston, Fir Grove; 3rd,  
Ruth Trench, Tennyson.

Knitting mit or sock, 11 to 16 years  
—1st, Myrtle Lowery, Coalfields.  
Knitted scarf, 11 to 16 years—1st,  
Ruby Fink, Tennessee.

Thrift problem, hour or sugar  
sacks, 11 to 16 years—1st, Nellie  
Johnston, Fir Grove; 2nd, Myrtle  
Lowery, Coalfields; 3rd, Dorothy  
Stainsby, Cowley. Using cement or  
gunny sacks, 11 to 16 years—1st, El-  
va Ballantyne, Coalfields.

Thrift problem, using old yarns or  
rags, 11 to 16 years—1st, John Les-  
koski, Fir Grove; 2nd, Pauline Les-  
koski, Fir Grove; 3rd, Antonia Rin-  
aldi, Burnis.

Vase of asters—1st, Sylvia Mur-  
phy, Cowley; 2nd, Popsy Spears,  
Heath Creek; 3rd, Barbara Bundy,  
Cowley.

Vase sweet peas—1st, Dorothy Ir-  
win, Cowley; 2nd, Sylvia Murphy,  
Cowley; 3rd, Elva Ballantyne, Coal-  
fields.

Vase petunias—1st, Edith Murphy,  
Cowley; 2nd, Sylvia Murphy, Cow-  
ley; 3rd, Alma Ballantyne, Coalfields.

Carrots—1st, Jessie Cameron; 2nd,  
Lawrence Crayford, Olin Creek; 3rd,  
Eileen Hayes, Maycroft.

Beets—1st, Peter Tamino, Lund-  
breck; 2nd, Eileen Hayes, Maycroft;  
3rd, Ernest Lusk, Olin Creek.

Parmsips—1st, Ruth Trench, Ten-  
nyson; 2nd, Lindsay Heatherington,  
Todd Creek; 3rd, Eileen Hayes, May-  
croft.

Turnips—1st, Peter Ewaslin, Lund-  
breck; 2nd, Dorothy Cams, Tanner;  
3rd, Ruth Trench, Tennyson.

Mangels—1st, Mary Percevault,  
Cowley; 2nd, Ruth Trench, Tennyson;  
3rd, Pauline Leskoski, Fir Grove.

Pears—1st, Hilda Miles, Farrant;  
2nd, John Leskoski, Fir Grove; 3rd,  
Ella Geisler, Tennessee.

Potatoes, white—1st, Elmer Lynn,  
Willow Valley; 2nd, Ruth Trench, Ten-  
nessee; 3rd, Peter Tamino, Lund-  
breck.

Potatoes, red—1st, Dorothy Cam-

er, Tanner; 2nd, John Leskoski, Fir  
Grove; 3rd, P. Ewaslin, Lundbreck.

Shield of wheat—1st, Edna Betts,  
Tennyson; 2nd, Gilbert Wright, Tan-  
ner; 3rd, Ruth Trench, Tennyson.

Oats—1st, Gilbert Wright, Tanner;  
2nd, Ethel Robinson, Tennyson; 3rd,  
Marcel Percevault, Cowley.

Barley—1st, Gilbert Wright, Tan-  
ner; 2nd, Ruth Trench, Tennyson; 3rd,  
Lindsay Heatherington, Todd Creek.

Sheaf rye—1st, Ronald Spears,  
Heath Creek.

Collection grasses and clover—1st,  
Ruby Fink, Tennessee.

Quart threshed wheat—1st, Vera  
Tench, Tennyson; 2nd, Ruby Fink;  
3rd, Nellie Johnston, Fir Grove.

Quart threshed barley—1st, Billie  
Rilston, Cowley.

Collection noxious weeds—1st, Ruby  
Fink, Tennessee; 2nd, Olin Creek  
school.

Noxious weed seeds—1st, Ruby  
Fink, Tennessee; 2nd, Nellie Robin-  
son, Heath Creek.

Pair of turkeys—1st, Marcel Per-  
cevault, Cowley.

Pair of ducks—1st, Rosalie Perce-  
vault; 2nd, Mary Percevault; 3rd,  
Marcel Percevault, all of Cowley.

Pen of Mediterranean breed chick-  
ens—1st, Dorothy Irwin, Cowley; 2nd,  
Muriel Marlow, Cowley; 3rd, Ralph  
Cleland, Tanner.

## An Inspiring Sight

The prairies of Western Canada during this year of grace, 1928, have been a joy to behold. In the early summer following the June rains the tender verdant green of the recently sown grain crops presented a restful picture full of promise for the future. As week followed week of almost ideal growing weather, with only an occasional storm affecting restricted areas, and an absence of rust and insect pests, the early promise of a bountiful crop grew steadily into a certainty.

Inspiring as the prairies were in early spring and the first days of summer, and full of promise as they were, as the crops became taller and the heads began to develop and fill out as they awaited the passing breeze, it is in the late summer and early fall months that the West really comes into its own and presents a picture which few places in the world can rival and none surpass.

This article is written in mid-September when days of unsurpassed sunshine prevail, each day closing with a glorious sunset, the promise of still another day of perfect harvest weather to follow. The writer has just completed a motor trip through hundreds of miles of grain fields. And what a sight! If the pessimist of our Dominion could make such a trip surely their croaking voices would be silenced.

Speeding along almost perfect roads, albeit only well graded dirt roads, whether over prairie as level as a billiard table, or with the feeling of a bird rising and dipping as the car speeds over more rolling country, dropping into a valley here and winding up through the hills, only one sight reaches the eye, and that panorama extends unchanged as far as the eye can reach—a seemingly limitless expanse of yellow golden grain. The whole country is golden yellow.

And no great industrial city in the world can show a scene of greater activity. On all sides can be heard the click and clatter of the binders as they cut down the ripened grain and with automatic carelessness toss the bound sheaves to one side, ready for the stookers. With amazing frequency the sight is witnessed of the newer combines—reaper and thrasher—some using the swather attachment, others threshing the grain as the big machines move onward with the irresistibility of a tank in modern warfare. In some fields the harvest hands are busy in groups gathering the sheaves into stooks; across the road a threshing gang is at work, horses haul the great racks or stook-loading machines, plowmen, engineers, firemen, drivers, all covered with dust and working at high pressure to accomplish a maximum of work before daylight falls.

And as one speeds along the road it becomes a necessity to slow down and turn out every few minutes as we pass, or allow to pass, a box wagon or motor truck loaded to capacity with the wheat being hurried to the elevators, those far from artistic but essentially modern and practical adjuncts to twentieth century grain raising and marketing. Every road is alive with them, great wagons drawn by teams, double teams, horses three abreast, countless new motor trucks, strings of wagons hauled by a tractor, driven by old men and young, boys hardly in their teens, women and girls, all headed to the nearest railway station.

And these small prairie towns and villages through which we pass every eight or ten miles all present the same scene of tireless activity. The loaded grain wagons and trucks are lined up awaiting their turn to reach the elevators, while the "putt, putt" of the engines testify to the energy with which the elevator operator is striving to keep up with the golden stream pouring in upon him. At the same time is heard the "hiss" of the grain as it is emptied through the elevator chutes into the waiting freight cars. All night long the elevator struggle with the giant task before them, and through the night the long trains plunge through the darkness hurrying the proceeds of the farmers' toil to the hungry markets of the world.

And where are those tens of thousands of harvesters from Eastern Canada, British Columbia, and the miner-harvesters from over the sea, which only a few days ago thronged our cities and larger town distributing centers? Scattered singly or in groups they have been swallowed up in the grain fields of Canada's prairie provinces. They have been merged into and become a part of the Epic of the West. They are working hard, but they are, too, catching a glimpse of a new life and it is inconceivable that they will fail to become imbued with some of the courage, the optimism, the vision of this great new land.

September days in Western Canada! Glorious days, health-giving, wealth-giving.

## A New Wireless Wonder

Apparatus Supplies Heat Without  
Apparent Direct Contact

The latest performances in which wireless is employed consist of supplying heat to bodies without establishing apparent direct contact between the heater and the heated body, and lighting lamps without any apparent electrical supply.

These are done by power obtained from a new short-wave vacuum tube. High frequencies are produced at high power, using a short-wave length.

Foodstuffs have been enclosed in a glass tube and hung from the end of a metallic "antenna" that receives the transmitted power and conveys it to the food in the form of heat and cooks it.

New methods in electrical treatment are always being looked for by doctors. Perhaps, in the future, this new apparatus will be used for imparting heat to the body to produce

## Foot Comfort

For aching feet use Minard's  
Soothers and relieves pain.

W. N. U. 1752

## Wonders of the Unknown

Wireless Has Revealed Many Things  
But Much Remains To Be

Learned  
Sounds, so faint that no human ear can detect them, but which run into the waters of an aquarium, will stun and kill small fish. An earthworm can hear well below the soil the tread of a thorough shoe, and so keep out of harm's way. One may hear a slug in a pansy bed but can you hear it munching away as it makes a meal?

There is many a quiver in the air that means nothing to human beings but has a message for the insect or the bird. Since the beginning of time, electronics have rushed through the ether at the speed of 186,000 miles per second, but we never knew of their existence until ten years ago, when "wireless" revealed it. What more remains in a world unknown to human senses?

## HAD NO APPETITE WEAK AND DIZZY

This New Brunswick Woman  
Restored By Dr. Williams' Pink Pills

Mrs. James Byles, Brown's Flat, N.B., says: "I am writing to tell you the great good I had through the timely use of Dr. Williams' Pink Pills. My health had failed and I was troubled with great weakness. I had no appetite and frequently dizzy spells. The least exertion would make my heart palpitate violently and I felt tired at all times. I had doctored a great deal without getting much relief, and was feeling utterly discouraged when I finally decided to try Dr. Williams' Pink Pills. The happy results following the use of this medicine can be summed up by saying that I am again perfectly well, able to do my housework and enjoy life once more. I feel it a duty to recommend Dr. Williams' Pink Pills to all weak people."

If you have any, or all, of the symptoms above noted, do not delay, begin treatment at once with Dr. Williams' Pink Pills. You will be surprised to note the improvement in your condition after a few weeks. You can get these pills through any dealer in medicine or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont. If you will send your name and address to the booklet, "Building Up the Blood," will be sent free.

## Intelligent Congressman

Shipowner: We must have government aid! Congress does not realize how expensive it is to operate a ship. Why, barnacles alone cost American ships \$100,000,000 a year.

Congressman: You ought to cut that item down. Use a cheaper grade of barnacles, or get along with fewer of them.

Painless and perfect in their action, Miller's Worm Powders are for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

## Turks Are Progressing

Dictor Kemal Pasha is compelling the Turks to abandon the Arabic alphabet and to learn the Latin alphabet. "Turkey is more progressive than the Irish Free State with its compulsory Gaelic. While the Turk goes forward the Celt goes back."

Minard's Liniment cleanses cuts, etc.

"Not by appointment do we meet delight and joy; they need not our expectancy! But round some corner in the streets of life they on a sudden clasp us with a smile."

Joseph Conrad, the novelist, could not speak English until he was 19.

## Pimples Itched And Burned Badly Cuticura Healed

"Pimples broke out on my nose and spread all over my face and body. They were hard, large and itchy, and caused me to scratch. The pimples itched and burned so badly that I scratched and scratched, causing many eruptions. They were so painful that I could not sleep, and used to cry from the pain. The trouble lasted two years."

"I purchased some Cuticura Soap and Ointment and after using them two days I found they were doing me. I continued the treatment and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Miss Lucy Kline, Verigan, Wis.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands and a healthy scalp with good hair. Cuticura Soap is used in the bath.

Sample Book Free by Mail. Address: Canadian Soap Co., 100 St. John St., Toronto, Ont. Send 10¢ for Cuticura Shampoing Stick 25¢.

The cool, comforting flavor of WRIGLEY'S Spearmint is a lasting pleasure. It cleanses the mouth after eating—gives a clean taste and sweet breath.

## Recipes For This Week

(By Betty Barclay)

### DELICIOUS VEAL

Use veal steak one-half inch thick. Cut into pieces large enough for a serving. Beat the yolk of one egg and add a teaspoon or more of water into this dip the veal; then roll in bread crumbs which have been toasted, and well seasoned with salt and pepper. Have an iron spider piping hot with about one-fourth inch oil in the bottom. Fry the veal quickly on both sides until a nice brown, then cover the veal with hot milk (a pint or more of sour cream may also be used). Cover tightly and set in a slow oven for about one hour, removing the lid for the last fifteen minutes.

### FAIRY FLUFF

4 egg yolks.  
4 tablespoons sugar.  
¼ cup orange juice.  
Grated rind 1 orange.  
Grated rind 1 lemon.  
2 tablespoons hot water.  
4 egg whites.  
2 tablespoons sugar.  
Lady-fingers.

Beat egg yolk with four tablespoons sugar; add orange juice and grated rind, lemon juice and grated rind, and hot water, and cook in double boiler until mixture thickens, stirring constantly. Beat egg whites until stiff, add two tablespoons sugar, and fold into first mixture. Chill; line sherbert glasses with lady-fingers; fill with orange mixture and serve.

## Milk May Be Sold In Sheets

Danish Farmer Has Invented Wonderful New Machine

The world is used to several varieties of prepared milk and to milk powder, but shortly it will be made, and sold, in sheets.

A landed proprietor at Copenhagen has invented a device which extracts the water from fresh milk and leaves dry milk which comes from the machine in a form resembling sheets of rather heavy tissue paper. In this form the milk, it is stated, can be kept for years, and becomes "fresh milk" again by mixing it with lukewarm water.

It is intended to build a factory to make this "sheet milk," which should be important to agriculture.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Eucalyptic Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent aches and will speedily heal cuts and contusions. It is a medicine chest in itself.

## Locating Rome

An American mother and daughter had made an exhaustive tour of the Continent. When they returned to their "home town," somebody asked the mother if they had been to Rome. "Say, Baddie," said the mother to the daughter, "did we go to Rome?" "Why, mother," replied the daughter, "of course we did. Don't you remember that's where you bought the black silk stockings with the white clocks?"

Teacher: "Johnny, why is it that you are not as polite and well behaved as Jimmy?"

Johnny: "Well, he lives in a street where all the other boys are bigger than he is."

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

The hardest part about knowing some people is to conceal your opinion of them.

Minard's Liniment for Every Pain.

## Some Good Bargains

Land Bought For Almost Nothing Is Now Invaluable

Probably the world's best bargain was made by Peter Minuit, a Dutchman, who bought the whole of Manhattan Island from the Indians in 1620 for goods worth \$24. Almost as good was that of Simon Van Der Stel, one time governor of Capetown, who bought the bay of Port Natal for \$60 worth of goods.

The East India Company made a gigantic bargain in the year 1668. Charles II. had just been given the island of Bombay as a dowry at his marriage with Infanta Catherine of Portugal. The King thought the place worthless—as the Portuguese had done—and allowed the Company to rent it for \$10 a year. In 1641 an agent of Lord Stirling's sold the whole of Nantucket Island to Thomas Mayhew for \$40; eighteen years later Mayhew sold a joint interest to nine partners for \$30, and two years later the island is now a separate county of Massachusetts.

A worth-while sale was effected by Roger Ludlow, a year before Mayhew bought Nantucket. Ludlow gave the Indians six fathoms of wampum, 6 coats, 10 hatchets, 10 hoes, 10 knives, 10 pairs of scissors, 10 jew's harps, 10 fathoms of tobacco, 3 kettle, and about 10 looking glasses for all the land between the Newwalk and the Sauguttick rivers in Connecticut, extending one day's walk from the Sound.

## Explanation Is Simple

Exceedingly strange are the whys and wherefores of names. Take for instance, the letter "Q"—how many of us have ever stopped to think or to ask ourselves why we call it "Q"? And the answer is just as strangely curious as the question. The name of the letter "Q" is from the French word "queue" meaning "tail." "Q" is simply an "Q" with a tail!

## Millions Still In Slavery

Slavery is still practised in nineteen countries of the world. The number of slaves is estimated at least 4,000,000. These men, women and children can be taken and sold for profit like any article of commerce. There are still nearly 2,000,000 slaves in Abyssinia out of a population of 10,000,000.

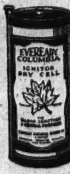

## Weatherproof

Dry batteries last longest when protected from wet or damp. Eveready Hot-Shots give you full value for your money, because they are housed in metal cases.

Before you buy a battery for ignition in exposed places, make sure it bears the name "Eveready Hot-Shot." Other batteries may resemble these famous power plants in appearance, but only Eveready can make the genuine Hot-Shot.

The Eveready Ignitor shown on the left is the longest lived single dry cell money can buy. It is for use indoors or under cover.

Eveready Ignitor tried single dry cell made. Use in unexposed places.

## RAILWAYS OF ALBERTA SOLD TO THE C. P. R.

Edmonton.—The Government announced recently, the completion of negotiations by which, subject to confirmation and ratification by the Dominion and Provincial legislatures and the shareholders of the Canadian Pacific Railway, the Provincial Government railways will be sold to the Canadian Pacific Railway with the express power to the Canadian National Railway to participate in half the obligations and half the benefits.

The purchase price is: First—The payment of \$25,000,000 as follows:

(a) Assuming first mortgage bonds of the Edmonton, Dunvegan and British Columbia Railway to the extent of \$9,420,000.

(b) Payment of the sum of \$15,580,000 as follows: \$5,000,000 on the first of June, 1929; \$5,000,000 on four years thereafter.

Balance, \$5,580,000 in ten years thereafter with interest at 4 per cent. from the date of sale.

Second: The purchaser assumes all payments made and commitments entered into in the extensions now being made to the Edmonton, Dunvegan and British Columbia and Central Canada Railways. As these extensions will probably involve another \$10,000,000 or more by the time the sale is consummated, it will be seen that the total purchase price is in the neighborhood of \$35,000,000.

The company further agrees to complete sixty miles of additional extensions in the next five years. It was not possible to get any commitment with respect to the coast route, but it will be remembered that in the joint offer submitted at the last session the presidents of the two railway companies would make no commitment whatever in this respect.

In the first offer made by Mr. Beatty on his return from the Peace River the \$15,580,000 was to be paid in ten years with interest at 4 per cent. In the subsequent negotiations that have taken place this was improved to provide for the installment of principal as above indicated.

## Mail Pension Cheques

Manitoba Old Age Pension Scheme Now In Operation

Winnipeg.—Hon. W. J. Major, K. C., attorney-general of Manitoba, announced that approximately 1,700 old age pension cheques will be mailed to aged persons in the province of Manitoba at the end of this month by the old age pensions branch of the Workmen's Compensation Board.

The pensions are at the rate of \$20 a month.

Legislation passed at the last session of the provincial government provided for the old age pensions scheme. The scheme was approved in an agreement between the provincial government. There are still nearly 2,000 claims for old age pensions to be investigated in Manitoba.

## Legacy For Lady Byng

London, Eng.—Lady Byng, wife of the hero of Vimy Ridge, is left £700,000 in the will of Pandell Hall, a wealthy Greek merchant, who was relative of hers, says the Evening Standard. Hall was a romantic figure in English society. He was a friend of King Edward VII. and of Lord Kitchener. He died at Brighton last August at the age of 83.

## Letter Carriers' Demands

Windsor.—A boost in maximum salaries from \$1,500 a year to \$2,100, a seven-hour day and a five-day week comprise the main demands to be made by the Canadian letter carriers of the government as formulated by the delegates to the biennial convention of the Federated Association of Letter Carriers of Canada.

## Warns U.S. Gangsters

Toronto.—The Quebec Government, acting through the department of the attorney-general, will take immediate steps in an effort to see that United States gangsters do not commit acts of violence upon Canadian soil. Attorney-General Price has issued this warning to United States gunmen.

## Reject Marketing Board Plan

Sydney, Australia.—Wheat growers have rejected a scheme to form a marketing board to control the sale of wheat for the next three years. A ballot to decide what course should be taken on the matter resulted in 7,453 growers opposing the scheme, while 6,026 approved it.

W. N. U. 1752

## Nations Must Agree On Naval Matters

Or Conference On Disarmament Would Be Useless Says Dr. London

Geneva.—An early meeting of the League of Nations preparatory commission on disarmament would be useless unless an accord on naval matters is reached among the five leading sea powers, says Dr. London, president of the commission.

Dr. London, who is Dutch ambassador to France, suggested that the best way to meet this condition would be through a private conference at Paris of representatives of the United States, Great Britain, France, Italy and Japan. He said such a conference might readily reach an agreement on the points respecting naval matters which now divide them.

He said that unless a working basis could be found among these powers he would not take the responsibility of re-convening the preparatory commission except upon a direct mandate from the full assembly of the League.

## River Steamer Wrecked

Sinks After Hitting Huge Boulder In Peace River

Peace River.—The steamer D. A. Thomas, according to reports reaching here, is sunk 60 miles below here, broken in the middle by a huge boulder.

Since the palatial steamer left for Vermilion Chutes and other way points, navigation has been carried on under the most trying circumstances, due to the extremely low stage of water. She was on her way upstream loaded with 60 head of cattle and several passengers when disaster overtook her. The cattle swam ashore and all aboard were rescued.

The steamer Thomas was built by the late Baron Rhonda in the summer of 1915, and was one of the finest on the inland waters. The material for her construction was freighted in over the old Grouard trail by teams when the end of the steel was at home, and her cost was upwards of \$100,000.

## Northcott Is Apprehended

Youth Wanted On Murder Charge, Is Arrested In B.C.

Vancouver.—Gordon Stewart Northcott, wanted by the Riverside, California, authorities on a murder charge in connection with the alleged slaying of several youths on a chicken ranch, and for whom the entire Canadian West has been searched for four days, was arrested at Okanagan Landing, five miles south of Vernon, by provincial police Constable Jerry Green, according to information telegraphed to Inspector Forbes Cruickshank, in charge of the Vancouver District.

The arrested youth, according to the police, did not deny his identity nor did he actually admit it. The police are certain, however, that he is the much-sought man for whom a country-wide search has been in progress for several days.

## Trail Riding Popular

Banff, Alta.—Trail riding in the Canadian Rockies is increasing in popularity. In 1925 Pat Brewster had five parties on the trail. In 1926 there were 18 who took this form of pleasure as the only way in which to see the full beauty of the Rockies. Last year the number was augmented to 41, and this year it will run to about 85.

## Death Of Mrs. Hayter Reed

Montreal.—Cable advices received here announced the death in London, Eng., of Mrs. Hayter Reed, eldest daughter of the late Chief Justice Armour, of Toronto. The late Mrs. Reed was prominent socially in Montreal and throughout Canada.

## High Commissioner To Dublin

Dublin, Irish Free State.—It is stated on good authority that negotiations are proceeding between the British government and the Irish Free State regarding the appointment of a high commissioner to Dublin.

## Loss From Damage Claims

Canadian and U.S. Railways Face Heavy Liability Each Year

Winnipeg.—Representatives of Canadian and United States Railways are meeting in Winnipeg to seek some method of reducing the enormous amount of damage claims paid for lost and damaged goods. Last year this amount totalled \$38,000,000.

A great deal has been done already as was reported at the meeting. In 1920 when the railways were first grouped and took definite action the figure was \$119,000,000. Since then reductions have been brought about each year. Shippers and receivers are co-operating better with the carriers and a great deal of education has been done among railway employees with a view to lessening rough handling and the other cause of loss. The American Railway Association employs three full-time special representatives to gather data on the subject and present it to the parties concerned.

## Famine In Russia

850,000 Persons Will Be Fed Through Public Funds

Khar'kov, Ukraine, Soviet Russia.—Eight hundred and fifty thousand persons will be fed through public funds during the coming winter in the Ukraine, the grain crop having fallen far below the need of the population. Ordinarily the Ukraine is one of Russia's best granaries and in good years has wheat both to eat and to export.

The Moscow government has appropriated 31,000,000 rubles, the Ukrainian government, 10,000,000 rubles and social service organizations have begun a campaign to raise an additional 6,000,000 rubles to provide nourishment this winter for the stricken population. One-third of the Moscow advance is a gift and the balance is a loan.

## SAYS CANADA PROVED TO BE A REVELATION

Southampton, Eng.—"Canada is the best holiday country I ever struck," said Mr. Hon. J. Ramsay MacDonald, leader of the Labor Party in the House of Commons, on his return here after a visit to the Dominion.

In an interview he said he did not think immigration to Canada would "cure or even substantially alleviate our unemployment problem."

"Discussing the British miner-harvester migration, Mr. MacDonald said: "There is no doubt a very determined attempt is being made by certain people to spread discontent among the harvesters. It is my impression that a considerable number of the men will remain and get employment in Canada."

"From east to west in Canada the British worker is preferred to anybody else, providing he is prepared to do the work Canada requires him to do."

He expressed the opinion that the problem of winter work could easily be solved if some simple system of organization were brought into existence. Statements that Canada does not welcome British workers were untrue, he said.

"After more than twenty years absence from Canada," Mr. MacDonald remarked, "I hardly recognized places I had visited visited before. It was an absolute revelation and a good revelation to me."

"There is a vitality of expansion, a youthfulness and a hopefulness in Canada," said the former British premier. "Her weakness is that she has not got sufficient magnetic power to keep her people both Canadian born and British immigrants within her own borders."

"The great magnet that is always pulling them in the U.S., and it is the most vital interest to Canada to devise some means whereby she can accumulate sufficient magnetic power to hold her population within her domains."

## BRITISH HARVESTERS IN ACTION

Photograph shows a group of British harvesters adding in the gathering of Canada's 1928 bumper crop.

## NOTED ENGLISH STATESMAN

The late Lord Haldane, Viscount of Cleeve, noted English statesman, who died recently at the age of 72.

## New Northern Route

### Is Complete Success

Was Opened By Blasting Of Montreal River Channel

The Pas, Man.—Saskatchewan's new route into the mineralized country of the far north, made available by the federal government blasting rocks out of the Montreal River in North Central Saskatchewan, is a complete success.

Hon. Thomas C. Davis, attorney-general of Saskatchewan, and Frederick MacDermid, K.C., of Saskatoon, accompanied by their wives, left Prince Albert on September 5, to make the swing around the great water half circle in the northern part of the province.

The voyage ended Tuesday afternoon, September 18, at The Pas, and was a complete success in every way, only 14 days being required for the entire trip.

That the distinguished travellers were accompanied by their wives proves conclusively the ease with which the new passage can be made.

## Rules In Oratorical Contests Altered

Manitoba Trying To Reduce Interference With School Studies

Winnipeg, Man.—Alteration of rules for International oratorical contests, designed to reduce to the minimum interference with school studies, has been decided upon by the provincial central committee. Under the new rules, Manitoba will take part in the 1929 contest. The revised conditions are:

That the contest be open to students of grades 10, 11 and 12 only. Last year students of grade 9 were eligible.

Schools teaching any of the grades from 10 to 12 are to be asked to decide their respective champions by Christmas, by any method they determine, provided public speaking by a considerable number of the pupils is involved.

The preliminaries to the championship contest in Easter week are to be completed by the end of March. The district elimination contests are to be held before Christmas.

## Eligible For League Posts

Geneva.—Women's rights have won still another victory. Henceforth appointments on the government boards of all international institutions which are linked with the League of Nations will be made without distinction of sex and women are now assured representation. A resolution to this effect was given unanimous approval by delegates at the league assembly. It was introduced by Dame Edith Lytton, of Great Britain.

## Will Enter Oratorical Contest

Winnipeg.—Manitoba will enter the international oratorical contest next year it is announced. A number of teachers had objected to the contest, and for a time it was thought that Manitoba would drop out; but it has been decided to enter again and continuation for another year will depend upon the measure of success of the contest now being arranged.

## New Branch Lines

Settlers In Saskatchewan Are From New Railway Facilities After Long Wait

Winnipeg, Man.—Settlers of Saskatchewan who have waited in some cases for as long as twenty-five years for railway services are assured of these before the end of 1929, is the announcement from Western Headquarters of the C.P.R. made here.

In the south section of the province a line of eighteen miles will tap the Fox Valley country at the west side, and the line from Penman, 24 miles south-westerly, will tap it from the east side.

From Alkins, the first station east of Swift Current on the Main Line of the C.P.R., a branch approximately 20 miles long will be sent northward. This line will eventually connect Swift Current direct with Saskatoon.

In Central Saskatchewan the following lines are being projected: From Foam Lake, southwesterly 27 miles.

From Rosetown to Perdue, 45 miles.

From Unwin, westerly 20 miles.

Northern Saskatchewan will benefit by the 10 miles northeasterly from Lloydminster.

## New Branch Line Opened

First Train From Melfort North Makes Journey Over C.P.R.

Melfort, Sask.—The opening of the new branch from Melfort north on the C.P.R. created considerable excitement and cheering when the first passenger train made its journey to the end of the steel at Edenbridge. Crowds of people greeted the "iron horse" which was quite reminiscent of the days gone by when the first train made their journey across the western prairies.

Every station platform along the way was jammed with people who were present to greet the first train to traverse the distance between Melfort and Edenbridge over the new C.P.R. branch line. With shouts and cheers they hailed its coming, thinking, no doubt, of the benefit to be received in being linked with the outside world.

## DEATH TOLL IN STORM AREA MOUNTS HIGH

Washington.—With death reports to the American Red Cross from the tropical hurricane area—Guadeloupe, Porto Rico, the Virgin Islands and Florida—reaching 1,199, the relief plans were rushed to combat the possibility of disease and pestilence following in the wake of the storm.

Hundreds of injured are to be treated, thousands fed and additional thousands given shelter and other elements. To this end the Red Cross is directing its gigantic relief machine.

Figures reaching the Red Cross place the dead as follows: Guadeloupe, 469; Porto Rico, 106; Florida, 427; Virgin Islands, 0.

Estimates of injured run into the thousands. Property damage is estimated at exceeding \$150,000,000. Tens of thousands are without homes.

The chief concern of the Red Cross and local relief agencies is now centered in maintaining sanitary conditions in the area ravaged by the hurricane.

Plans were rushed to establish two camps in Palm Beach to care for refugees where they can obtain treatment for disease. Sanitary conditions in the interior of Palm Beach county were reported bad.

Governor-General Waldo Evans of the Virgin Islands, notified Red Cross headquarters that health conditions were bad but there was not immediate danger of an epidemic. United States Consul William H. Hunt, reported from Guadeloupe in the French West Indies that disease in epidemic form is feared.

Evans and Hunt both appealed for Red Cross aid in the emergency.

Henry M. Baker, National relief director for the Red Cross, arrived in Porto Rico and rushed to headquarters here that while there was no immediate danger of epidemic there, he said conditions were bad and food and clothing needed.

## AIR EXPRESS TO BE INAUGURATED IN WEST SOON

Winnipeg, Man.—The ability to save time by air express has been proven recently when the de Havilland G1, plane of the Western Canada Airways, glided to a stop on the grounds of the Kirkfield aerodrome here, carrying several express packages from Edmonton and Saskatoon for delivery in this city.

Between Calgary and Edmonton the plane experienced rough weather and was forced to return to the former city to await more favorable conditions. This in fact made the time of the journey later than expected but from Edmonton to Saskatoon the 500 miles was covered in three hours and forty-five minutes, which is a saving of several hours.

This trial trip has proved to be quite satisfactory and the officials of the Canadian Pacific Express will inaugurate early next month a regular bi-weekly service, connecting with arrivals and departures of trains at cities between here and Calgary.

The method of procedure for this service is that the express agent will gather all parcels marked with the air express stamp and convey them by truck to the airfield where, after careful checkings, they are turned over to the pilot, who after signing receipt deposits them in a specially designed cubicle in the lower front of the plane. Upon arrival in each city, the parcels destined for that point are turned over to the express agent for delivery.

## Looks For Better Prices

United States Farmers Are Urged To Hang On To Their Crops

Washington, D.C.—Secretary Jardine asserted in a statement released through the Republican national committee that "if Governor Smith is elected and farm prices are reduced to the schedule of the Underwood Act, as Governor Smith forecast in his acceptance speech, the entire farm industry will be thrown into a state of utter demoralization."

He reiterated his views that wheat farmers should hang on to their crops. He said that the present price level is lower than justified, and that everything pointed to an increase.

Noting prospects of increases in this country's wheat crop, and the forecast for the biggest Canadian crop in history, he said, however, that from a world point of view the situation is about the same as last year. Shortage of wheat abroad and growth of wheat in the United States, he asserted, would increase foreign demand.

## Plot To Kill Trotsky

Several Attempts Are Made To Assassinate Exile In Siberia

London, Eng.—The London Daily Mail says that despatches received in London revealed several attempts to assassinate Leon Trotsky, who has been exiled to Siberia by the Soviet government.

According to the reports, Trotsky had written letters to Christian Rakovsky, former Soviet minister to Great Britain, describing how his cottage was besieged and how sharpshooters attacked him from trees.

Trotsky said he and his son defended their house with two sporting guns and told how the attack was repulsed three successive nights.

After the failure of the sharpshooters, local authorities denied food to the Trotsky family, the latter were purported to have said. Only the kindness of friends saved them from starving.

## Windmill Plane Crashes

Le Bourget, France.—The autor-gyro or flying windmill, in which the Spanish inventor, Juan de la Cierva, made a successful flight across the English Channel, crashed in the course of a trial flight here and was badly damaged. Senior de la Cierva and his mechanic were bruised but escaped serious injury.

## To Be Deported

Ottawa.—Edward Evans, British harvester who came to Canada following his conviction on a serious charge in England, is to be deported. It was learned at the department of immigration, Evans was given the option by the magistrate of spending a term in jail or leaving England.

## Form New Association

Ottawa.—A new organization of postal employees, to be known as the "United Postal Employees of Canada" was launched here by the biennial annual convention of the Dominion Postal Clerks' Association.

## Local and General Items

Mr. A. Fabro was a visitor from Kimberley over the week end.

**FOUR-ROOM HOUSE FOR SALE.**  
Apply to Jack Patterson.

Kimberley Elks will hold their annual carnival on October 8th, 9th and 10th.

The blue grouse hunting season opened in British Columbia on September 15th.

Mr. Richards, of the provincial department of mines, was a visitor to The Pass this week.

Mr. Allan Hamilton arrived from Winnipeg last week end to join his family here.

The sea gull is a protected bird, yet report says that quite a number of these birds have been shot down by duck hunters in southern Alberta of late.

"It's got to these days," complained a friend of ours, "that you can hardly get a girl to marry you unless you have three licenses, two of which must be for liquor and a car."

A salmon weighing 43½ pounds and measuring 40 inches in length, was recently landed on a fly from a Newfoundland stream by Dr. Ferguson, of Germantown, Pennsylvania.

**The members of Greenhill Temple No. 10, Pythian Sisters, will hold a whist drive and dance in the Lodge Hall on the evening of Friday, October 5th. Snappy music, good supper and prizes.**

At the Red Deer Elks' carnival, the major prize, an Essex coach, was won by Mrs. George Dancocks, senior, while her daughter received \$50 for selling her lucky ticket. The carnival netted \$2700.

Cinders are being used in the construction of concrete sidewalks at Hanna. It is said that screened coarse cinders will provide a good base, and the experiment will be watched with interest.

Mrs. D. May has returned to Vancouver, after spending the summer with her sons, Messrs. A. S. May, Blaimore, and Albert May, Bellevue; and her daughter, Mrs. Finlay McLaren, Blaimore.

Enoch Baddeley and H. Bryant, representing the local miners' union, left this morning for Ottawa where they will appear before the Tariff Commission to request the removal of the fifty cents a ton duty on soft coal. The Calgary Herald, the mouthpiece of the Alberta operators, is raising a howl to heaven against the proposed reduction in tariff. Although Alberta does not ship a pound of railroad coal into Ontario or Quebec, the Alberta coal operators would pursue a dog in the manger attitude toward Crow's Nest coal, which has a large market to the south and which would be much greater if we could ship free coal into the western States.  
—Ferne Free Press.

A good many husbands are just getting back from their wives' vacations.

C. P. Hill, founder of the mining village of Hillcrest, was a visitor from Victoria last week end.

Mr. and Mrs. E. Elliott and daughter left last week end for Kimberley, where they will make their home.

The first issue of The Royal Gazette, the oldest paper in Newfoundland, appeared on August 27th, 1806.

The account of a wedding appeared in a Calgary daily paper under the classified heading of "Help Wanted."

W. C. Durant, of Durant Motors, has offered a reward of \$25,000 for a workable plan to enforce prohibition in the United States.

Mar Ming will be able to leave the Bellevue hospital this week. He has been confined to bed for twenty-one days.

Mr. R. Rinaldi assumes control of the Orpheum theatre here, and the Palace theatre at Coleman, on Monday next.

Miss Jean Greig has gone to Edmonton, where she enters upon a course of studies at Alberta University.

The Coleman editor backs up the statement contained in a recent issue of the Calgary Albertan, which credited Coleman with a population of 8500. Any others, please?

Rev. Alexander Ferguson, M.A., of Kingshead, Pictou, Nova Scotia, will be inducted as pastor of St. Andrew's Presbyterian church at Macleod on Tuesday, October 16th.

A party in Frank recently purchased what was advertised as a bird dog—and because the darned thing didn't sing a note in two weeks he sent it back and asked for the return of his money.

During the recital at the United church on Monday night, solos were rendered by Mrs. J. A. Kerr and Mr. Rennie Gresham, with Mrs. J. W. Smith and Miss D. Knappman as piano accompanists, respectively.

Mr. W. Shaw, district superintendent for Burns & Co., Limited, was up from Lethbridge on Tuesday on a visit to branch stores in this district. Before returning, he paid a brief visit to Corbin.

Arthur Lund, aged thirty-seven years, son of Peter Lund, founder of the mining camp of Lundbreck, who with Mrs. Lund now resides at Lethbridge, died at Penitence, B.C., recently. He is survived by his wife, parents and other relatives.

The Order of the Eastern Star is holding a sale of work and home cooking in the Lodge Hall on Wednesday, December 5th, from 3 to 6 p.m., followed by a whist drive and social in the evening at 8 o'clock. Everybody welcome; come and bring your friends.

Dr. J. S. Hynde, of Claresholm, was a brief visitor here on Friday last.

A party of big game hunters will start out for the mountains on Saturday, in charge of Carl Smith.

Saskatchewan is Canada's chief wheat producing province, producing nearly one-half of the total of the whole Dominion.

Duncan Baird, who has been residing in Spokane for the past few years, was a visitor to his parents here during the week.

Mark Spencer, mayor of Cardston, died at Rochester on Wednesday of last week, following a critical operation. He was in his sixty-fifth year.

George Lynn and family will leave for Lethbridge this week end, where, we understand, George will take over the Hub cigar store on Monday next.

Constable C. Fordham, and bride arrived by this morning's train. They will immediately take up residence on Fifth Avenue in the house recently vacated by Constable Spence, of the town police.

Mrs. Owen Morgan, who had been visiting her mother here, Mrs. Susan Evans, returns to Saunders today. She will be accompanied by her mother, who will spend a few months at Saunders.

A measuring party will be conducted by the local Women of Mooseheart Legion in the Moose hall tonight. A large attendance of small people is expected. Why we suggest "small" is that we feel sure most of the members who are of Scotch origin will endeavor to shorten themselves in order to make the admission fee a nickel less. The admission will be 5 cents a foot or fraction thereof. A number of Moose members and Legionaires are expected from Fernie.

Addressing the gathering at the banquet tendered Presbytery delegates at the United church last night, Rev. Dr. Melvin stated his pleasure at the opportunity of the first time seeing the mountains. He had experienced two great thrills in his lifetime—one "over there" in America, the other when confronted by the majestic grandeur of the Crow's Nest Pass section of the Rockies today. Many of the delegates present are in the mountains for the first time, and all are agreeably impressed.

### Present Day Dress

A lady walked into a dry goods store in Blaimore the other day. "I want a pair of garters, please?" she asked.

Clerk: "Yes, madam. Something like those you're wearing?"

### ALIBIS

The word "alibi" a few years ago was used almost exclusively in criminal courts, but today we use it in a broader way. It has come to be used instead of the word "excuse."

What would we do in this old world if we didn't have excuses or alibis? Whenever anything goes wrong, there is the alibi. Whenever we are being criticized for failure, old Mr. Alibi comes to our aid.

However, is an alibi desirable? Would it not be better for us to accept criticism when justly made, rather than to offer an "alibi," which is generally a rather poor and weak excuse?

"Alibis" are like certain drugs; we may think they help us temporarily, but when we become addicts in the use of alibis or drugs, then we are on the down grade; then we are descending into the valley of lost hope and despair.

We may think we are real clever in the use of our "alibis," but we must not be deceived for "alibis" are "alibis" and are easily recognized at a distance.

Most "alibis" have been much used and abused. They are generally second hand.

"Alibis! Let's discard them! Let's send them to the dump ground or the incinerator!—Great Northern Semaphore.

## TENDERS WANTED

**SEALED TENDERS** will be received by the undersigned up to 8 p.m. Monday, October 1st, for the construction of a bridge across Iron Creek, connecting Dearborn with Main Street. Specifications and plans may be seen at the town office.

A. J. KELLY,  
Secretary-Treasurer,  
Town of Blaimore.

A fine new Makonic temple has just been opened at Jasper.

Charles Danbolt, who was operated upon at the Bellevue hospital recently, will leave that institution this week.

The regular monthly meeting of the Ladies' Aid of the United church will be held in the church on Wednesday next, October 3rd, at 2.45 p.m.

When Val was told the other day that the new Sterilization Act was to be put into force, he immediately destroyed his prize play pipe that he had enjoyed the use of for seventeen years or more.

At a rally of Lethbridge Assembly No. 48, of the Native Sons of Canada, on Monday night, twelve candidates were initiated.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C. [N25]

The latest fish yarn comes from Carbonade river, where a few days ago a chap named Kelly, who had been fishing for three solid hours without luck, suddenly lost his balance, fell over a cliff into the pool, and in hand and empty basket at his back. When he emerged from the chilly waters he was surprised to find his basket filled to the brim with dolly varien and cut-throat trout, while scores of their chums were rushing up on the beach after the poor fisherman.

At Redcliff, the ladies of the United church conducted a two-day "Made-in-Canada" sale. The sale was opened by the mayor of the town and was patronized by practically the whole populace. The novelty of the affair was the main attraction. Most of the goods sold were donated by manufacturing plants throughout the Dominion, which were glad of the opportunity of advertising or placing their products before the people.

Rev. Dr. G. W. Kerby, principal of Mount Royal College, Calgary, and president of the Alberta Conference of the United Church of Canada, who is in town attending the sessions of the Lethbridge Presbytery, will be a very busy man over the week end. Tomorrow he is to address several gatherings in Lethbridge and attend the induction of Rev. Dr. J. W. Melvin into the pastorate of Wesley United church. He will also officiate at the dedication of the new collegiate institute the same evening.

A local sausage maker was seen poking a blind pig into a sausage hide a few days ago.

"Daddy, do lawyers ever tell the truth?"

"Yes, my son. Sometimes a lawyer will do anything to win a case."

Mrs. Murphy: "An' do ye think he looks loike his father?"

Mrs. Flanagan: "O! do, but don't ye mind that, Mrs. Murphy, just so long as the child is healthy?"

### Always Room

At a public dinner a certain bishop was generally patronized by a millionaire.

"I never go to church," the millionaire said. "Perhaps you've noticed that, bishop?"

"Yes, I have noticed it," said the bishop gravely.

"No doubt you wonder why I never go to church, don't you?" the millionaire pursued. "Well, I'll tell you why, bishop. There are so many hypocrites there."

"Oh, don't let that keep you away," cried the bishop, smiling. "There is always room for one more, you know."

## Noxious Weeds Notice!

Noxious weeds from mature plants are spread by the wind. Hand pull and burn all such plants. Burn any ripe blossoms of Sow Thistle and Canada Thistle that you may find.

Require all threshing machines, combines, wagons and racks used at the time of threshing, to be thoroughly cleaned before moving on to your farm or leaving it.

Gather and burn all weed seeds left on the ground after threshing. See that your summerfallow goes into the winter "black."

**ATTEND TO THIS OR MUCH OF THE GOOD WORK THAT HAS BEEN DONE IN WEED CONTROL AND ERADICATION WILL BE UNDONE**

**YOUR CO-OPERATION**  
in the campaign for a "Weed Free Province" is solicited  
Register all Threshing Machines and Combines with the Department of Agriculture
